

# **AGENDA**

**Release Reporting Regulations Workshop  
Santa Clara County  
Department of Environmental Health  
1555 Berger Drive, Bldg. 2 1<sup>st</sup> Floor Auditorium  
San Jose CA 95112  
April 21, 2015  
10am - Noon**

Introductions (CalOES Representatives)

Current requirements – Title 19, California Code of Regulations.

Why should they be changed?

What are our options?

- Do nothing. Keep everything the same. (Risk based)
- Generate tables of chemicals and reportable threshold quantities.
- Keep things generally the same, but clarify such concepts as “significant”, “immediate” and “threatened release”.
- Where do we go from here?
- Collecting suggested language.
- Stakeholder conference calls.
- Rulemaking.
- How to submit written suggestions.
- Joining the stakeholders group.
